About KompacPlay Sink Cover

Inspired by modern lifestyle needs for practical solutions in multipurpose spaces, KompacPlay Sink Cover is a customisable add-on feature made of 6MM KompacPanels that offers practical function as an alternative workspace while adding to the signature sleek aesthetic appeal of KompacPlus installations.

In modern kitchen spaces, the KompacPlay Sink Cover can be tailored to fit seamlessly with your KompacPlus countertop to create extra countertop space right over the kitchen sink. When in use, the customisable covers can serve as a base to support chopping boards for meal preparations or as a tool to hide dirty dishes from view.

RECOMMENDATIONS

As an add-on feature for kitchen countertop installations, KompacPlay Sink Cover is best recommended for undermount sink applications where the sink rims are hidden from view. This method will allow easy cleaning of countertops in one swift swipe so that any dirt and spills on the surface will end up directly in the sink.

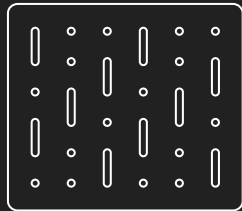

Outside of kitchens, this application is also applicable in bedrooms, bathrooms and even work study rooms as covers for vanities and tabletops with built-in storage to keep surfaces clutter-free.
