Making Extra Work Room Right Above the Kitchen Sink

Level up your kitchen space with KompacPlay Sink Cover – a customisable application from our KompacPlay collection that seamlessly extends from the countertop to make extra work space directly over the sink.

Complimentary* with new KompacTop orders

For a limited time only, new KompacTop orders are entitled to one (1) complimentary KompacPlay Sink Cover application that can be customised by any colour and designs available in our Kollektion.

Let Your Personality Flow in All the Right Ways

From the number of lids to the cover design, take your pick from the standard selections provided to build the perfect kitchen sink top combination. Each KompacPlay Sink Cover is made-to-measure according to your kitchen sink of choice to ensure the perfect fit upon installation.

Made from High Water-Resistant KompacPanels

Featuring a signature compact thickness of only 6mm, KompacPanel is an innovative surfacing material made in Italy.

Underneath its textured surfaces, the material has a strong solid core that is supremely resistant to impact and scratches resulting from daily use. Supported by a non-porous structure with anti-microbial properties that inhibits bacterial growth, it also allows easy maintenance to serve long-lasting aesthetics on top of durable function as countertops, shelving, custom furniture and more.

*Terms and conditions apply. See page 10 for more details.

Recommendations

Best Recommended for Undermount Sink Applications

For best aesthetic appeal, KompacPlay Sink Cover is best recommended for undermount sink applications where the sink rims are hidden from view.

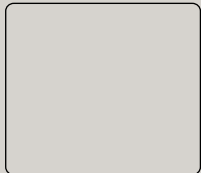

This method will allow easy cleaning of countertop in one swift swipe while worrying less about dirt and spills getting caught in installation joints over time.
