

WHAT'S INSIDE YOUR COMPANION KIT?

01 Companion Guide

02 Kleanser®

03 Kleaner®

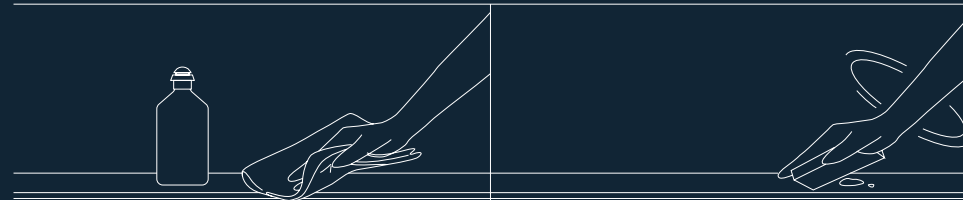

04 Eraser®

As part of our efforts to provide the ultimate service, every KompacPlus installation completed within the eligibility period listed below is entitled to one (1) complimentary Companion Kit to help you maintain clean and stain-free surfaces for years to come.

For SINGAPORE: From 13 July 2022 onwards
For MALAYSIA: From 01 Jan 2024 onwards

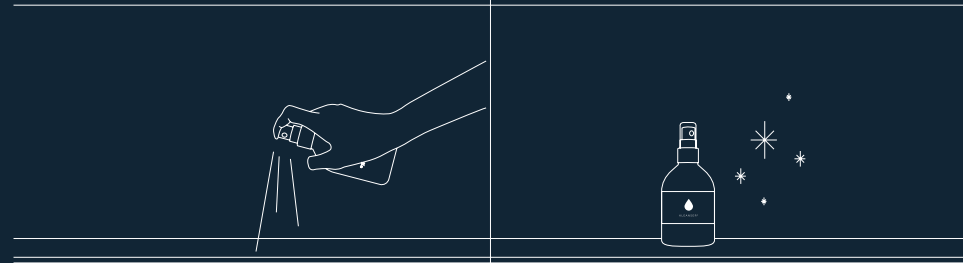

FOR EVERYDAY CLEANING

To prevent tough stains, dirt and spills should be cleaned from KompacPanels surfaces as soon as possible.

Apply mild detergent on Kleaner to remove dirt residues from panel surface. For oil-based spills, use paper towel to absorb excess liquid before doing the same.

For tough stains and residues, gently rub Eraser with firm pressure in circular motion to remove residues from panel surface.

Once residue is completely removed, apply rinse-free Kleanser to sanitise panel surface.

Use Kleaner to remove excess water and leave panel surface to air dry.

CAUTIONARY NOTES AND CLEANING TIPS

EVERYDAY CLEANING

To clean your KompacPanel surface, a quick wipe-down using a clean cloth or sponge with a mild soap or detergent will do the job. Rinse the surface thoroughly with warm water and wipe dry after.

TREATING STAINS

Treat spills and stains using a mild household cleaner or detergent and a soft bristled brush.

For tough stains, use a paste of baking soda and water and apply with a soft bristled brush. Avoid excessive or forceful scrubbing to prevent damage onto the surface.

For stubborn stains, apply nail polish remover and let it stand for no more than two minutes. Rinse the surface thoroughly with warm water and wipe dry. Repeat only if colour of surface is not affected.

CAUTIONARY NOTES

Avoid direct contact of heat with countertops. Always use a heat shield or pad when using hot pans and heat-producing appliances. Extreme heat can cause cracking and blistering.

Avoid contact with harsh chemicals. In the event of contact, wipe immediately and rinse several times with warm or soapy water.

Avoid using acidic, harsh or abrasive cleaning solutions and tools.

Avoid water ponding on the top surface at all times.

Prolonged exposure of the KompacPanel surface to bleach will cause discolouration.

Do not place KompacPanels outdoors or in places with direct sunlight. UV lighting may affect the colour and shade of the panels over time.

DEALING WITH SPECIFIC DIRT AND STAINS

AGAINST

Animal and Crop
Fats, Sauces,
Dry Blood, Eggs,
Smoke Black, Jelly,
Vinyl Adhesives,
Watercolour Paints,
Organic Residues

Vegetable Oils,
Linseed Oils

Ink

Oil Paint, Adhesives

Limescale

Silicone

RECOMMENDED METHOD

Remove using baking soda and water
mixture.

Remove excess oil using paper towel,
then apply acetone on wet cloth to
finish.

Remove using wet cloth and acetone/
nail polish remover.

Remove using wet cloth and thinner.

Remove using detergent with low
citric or acetic acid (max 10% only).

Remove using wooden or plastic
scraper.
